Design for Ergonomics and Biomechanics

Brabie G., Chirita B. {g-brabie@ub.ro}
University of Bacau
Basic Problems Concerning the Application of the Industrial Ergonomics Concepts in the Design of the Machine Tools

Dovžak-Bajs I., Šaric V., Opalic M. {milan.opalic@fsb.hr}
University of Zagreb, FMENA
Biomechanical Joints as Tribology System

Gorini G., Pighini U., Garavelli D., Ridolfi A. {papa@tiscalinet.it}
University of Rome “La Sapienza”
Methodical Design of an Automotive Synchromesh Gear Actuator for People with Motor Disability

Grbac I., Ivelic Ž., Tkalec S.
Faculty of Forestry, Zagreb
Design of Children’s Cots With Regard to Child Anthropometry

Moes C.C.M. N. {c.c.m.moes@io.tudelft.nl}
Delft University of Technology
Distance Between Points of Maximum Pressure for Sitting Subjects

Moes C.C.M. N. {c.c.m.moes@io.tudelft.nl}
Delft University of Technology
Pressure Distribution and Ergonomics Shape Conceptualization

Pighini U. {u.pighini@dma.ing.uniroma1.it}
University of Rome “La Sapienza”
A Design Procedure for the Safety of Mechanical System

Saucha J., Milicic D.
University of Zagreb, FMENA
Stress Determination in Femur by the 2nd Order Theory

Sprecic D., Muftic O., Milicic D. {denijal@untz.ba}
Faculty of Mechanical Engineering, Tuzla
Effect of Asymmetric Loads Upon the Spatial Movement of Open Kinematic Chains

Urriolagoitia G., Hernandez L.H., Dominguez V. M., Ortiz H. E., Carbajal M. F., Ferrer L., A. {eamc@mexico.com}
Analysis of the Strain Field of a Human Femur Subjected to Load by Reflection Photoelasticity
Vinkovic M.

Faculty of Textile Technology, Zagreb

Orientation Lines in Garment Design
